Middle School Philosophy Statement

In the Middle School at Prem we bridge the gap between Junior and Senior School in a supportive environment where students grow and mature during their early adolescent years. We nurture our students to become global citizens who lead responsibly, live sustainably and celebrate diversity through engagement in a rigorous and stimulating learning environment.

We believe in:

- Fostering physical, social, emotional and cognitive growth
- Empowering all students with the knowledge and skills they need to take responsibility for their lives and to successfully face life's challenges
- Focusing on students' affective as well as academic needs
- Promoting curiosity, risk-taking and resilience as our students strive for excellence with their learning
- Developing a sense of self identity, integrity and responsibility for communities local and global
- Involving students in decision making
- Including parents and communities in supporting student learning and healthy development
- Collaborating to continually develop instructional practices and to analyse student data to create individualised instructional responses.
