

Prem International School

Boarding and Day School
Chiang Mai, Thailand

Career-related Programme

The IB Career-related Programme (IBCP) is a dynamic dual-enrollment pathway for students in Grades 11–12 (ages 16–19) who have a clear vision for their future and are eager to pursue their passions through focused, career-related learning.

Combines academic IB courses with Career-related Studies (CRS) from leading universities and institutions, as well as internships and mentorship programs.

Offers a wide range of career pathways in fields such as: Business & Entrepreneurship, Design & Creative Arts, Environmental & Conservation Studies, Technology & Engineering, Hospitality & Service Industries, and more.

Boarding Available – Join our vibrant international boarding community with students from all over the world.

How Will IBCP Students Learn?

The IBCP is a blend of IBDP courses, the CP Core, and Career-Related Studies (CRS) through external, accredited universities. IBCP students take 2–4 DP courses while being dually-enrolled in their chosen career-related pathway. Students engage in real-world projects, internships, and mentorship programs with professionals.

The IBCP is assessed through a combination of academic coursework, career-related studies, and core components. Unlike the IB Diploma Programme (IBDP), the IBCP does not use a final cumulative score out of 45 points. Instead, students must pass all required components to receive the IBCP Certificate.

Real-World Learning

Engages students with practical, real-world learning, critical thinking, and hands-on projects.

Career Focused

Students set clear goals that are aligned with their professional interests and aspirations.

Personal and Professional Skills

Emphasis on teamwork, communication, and ethical decision-making.

Organized Development

Students build a structured portfolio showcasing their achievements and career readiness.

Innovative Thinking

The IBCP fosters creativity and problem-solving, empowering students to tackle real-world issues.
