Since its founding, Prem has offered the **International Baccalaureate (IB) programmes: Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP)**. It was also the first school in Southeast Asia to offer the **IB Career-related Programme (CP)**. We also offer an Intensive English Programme (IEP), which supports students to reach the fluency needed to enter the IB programmes.

Prem is a WWF green-flag school with a commitment to inspiring future generations of eco-conscious individuals.

Prem Early Years (EY 1-3)

Inspired by the Reggio Emilia philosophy, Prem Early Years Programme provides a nurturing and holistic learning experience that features weekly sessions at our Three-Generation Farm and Forest School as part of our world-class outdoor education programmes.

Our teachers see children as capable learners who thrive through play-based, hands-on experiences. We focus on the individual child, valuing their ideas and interests, using art, nature, and thoughtful projects to spark curiosity and creativity.

Primary Years Programme (PYP) Grades 1-5

The Junior School comprises Grades 1-5 and offers the International Baccalaureate (IB) Primary Years Programme (PYP). We offer a holistic learning approach that is child-centred and personalised. Holistic learning emphasises the interconnectedness of various subjects and promotes a comprehensive understanding of the world. Students identify as readers, writers and mathematicians as learning becomes increasingly academic.

Our students participate in a Creativity Hour one hour per week where they have agency to be innovative and imaginative.

We use our Three-Generation Farm and Forest School programmes to support each grade's Units of Inquiry. Our Forest School and Farm leaders work with the homeroom teachers to create learning experiences that are relevant, engaging and meaningful for the students.

Middle Years Programme (MYP) Grades 6-10

The Middle Years Programme (MYP) at Prem, designed for students in Grades 6-10, builds upon the foundational skills developed in the Primary Years Programme (PYP). The MYP framework integrates six global contexts across all subject areas, enabling students to connect their learning to real-world issues. This holistic approach is further enriched by a strong emphasis on service, encouraging students to engage with local, regional, and global communities.

The International Baccalaureate (IB) Diploma Programme (DP) Grades 11-12

Prem students in Grades 11-12 are offered the IB Diploma Programme, which is a rigorous, globally recognised curriculum designed to develop well-rounded, critical thinkers prepared for university and beyond. Students engage in a broad range of subjects, including Languages, Sciences, Mathematics, Individuals and Societies, and the Arts, while also completing the core components, such as the Extended Essay, Theory of Knowledge, and frequent engagement in Creativity, Activity, and Service. The programme emphasises international-mindedness, encouraging students to become active and compassionate global citizens.

The International Baccalaureate (IB) Career-related Programme (CP) Grades 11-12

Prem was the first school in Thailand to offer the IB Career-related Programme. The CP pathway is designed for students who want to combine academic study with practical, career-focused learning. It allows students to specialise in a specific career path while also taking IB Diploma subjects and engaging in projects like the Reflective Project and service learning. The programme emphasises real-world skills and global perspectives, preparing students for both further education and the workforce.

Prem currently offers three Career-related Programmes in the Arts, Sustainability and Sports Management. We have partnerships with Savannah College of Art and Design (SCAD); Sustainability Management School Switzerland (SUMAS); Arizona State University; and World Academy of Sport (WAOS).

Intensive English Programme (IEP)

The Intensive English Programme (IEP) at Prem is tailored for students who need to strengthen their English language skills before joining mainstream IB classes. The IEP offers a student-centred approach to language learning. Our curriculum emphasises literacy and English language acquisition skills across the core subjects of Science, Math and Humanities.

Prem Boarding Programme

Prem offers flexible boarding options tailored to meet the diverse needs of our students and their families.

Prem ensures the safety and well-being of boarding students through a dedicated team of boarding staff, boarding clinics, and robust student support services. Our 24/7 security team provides constant vigilance while the on-campus clinics offer immediate medical care. This comprehensive approach creates a secure and supportive environment, prioritising the health and safety of every boarding student.

Boarding students engage in a diverse range of activities that enhance their learning and personal development. Additionally, a comprehensive weekend activities schedule offers exciting trips and enriching experiences, ensuring a well-rounded and enjoyable boarding life.

24/7 Nursing and Security Staff

Lifelong Friendships and Service Opportunities

After-School Activities via the Exploria Programme

Comprehensive Tutoring and Academic Support

Exciting and Diverse Weekend Excursions

Exploria and Academies

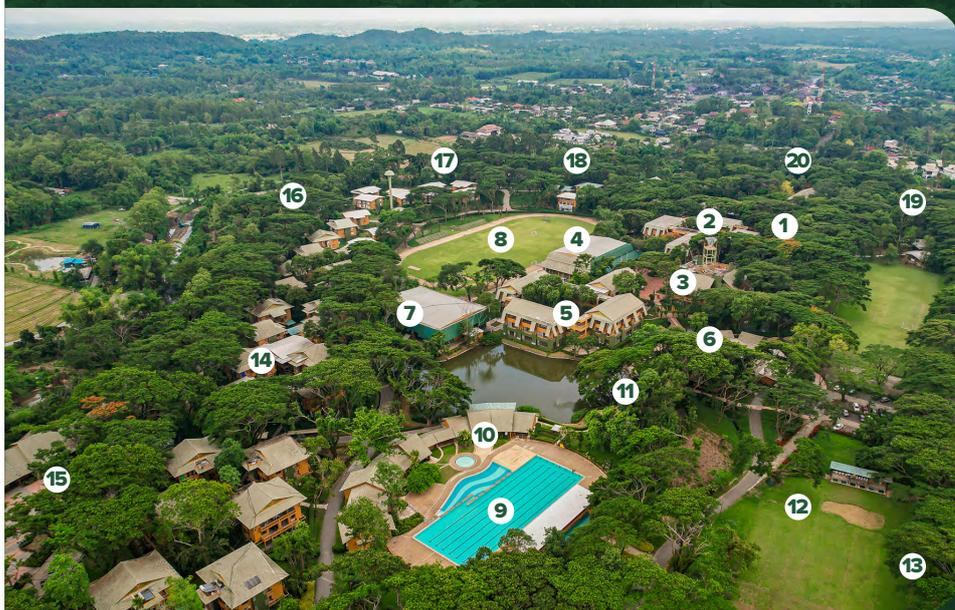

Our Prem 'Exploria' Programme offers students a diverse range of co-curricular activities and enrichment opportunities. Designed to complement our academic programmes, Exploria provides students with the chance to explore new interests, develop skills, and engage in creative, service, academic and physical pursuits.

One of the unique aspects of Prem is its range of specialised academies, including the Music Academy, Golf Academy, Tennis Academy and Swimming Academy. Each academy is led by experienced professionals dedicated to helping students reach their full potential.

Prem's beautiful 100-acre campus, nestled in a lush, natural environment, reflects its commitment to sustainability and outdoor education.

Our campus and facilities are exceptional, providing the resources and support necessary to offer a well-rounded and enriching learning experience for all of our students.

Prem has equipped its classrooms, learning spaces, and sports facilities with powerful Positive Pressure Systems (PPS). The advanced PPS systems maintain near-zero PM2.5 levels for when outdoor air quality is less than ideal.

1. Administrative Office including Medical Clinic
