

Prem Intensive English Programme (IEP) Empowering English, Unlocking Potential

The Prem Intensive English Programme (IEP) is ideal for students who need to strengthen their English language skills before joining an International Baccalaureate (IB) curriculum at Prem International School.

What Will IEP Students Learn?

◆ English Language Skills

Our curriculum focuses on building literacy and language acquisition skills through core subjects such as English, Science, Maths, and Humanities.

◆ IB International School Success Skills

Success in an IB international school requires more than basic English. Through the IEP, students also develop critical thinking, presentation, public speaking, note-taking, and academic research skills.

As part of the wider Prem community, IEP students embrace the core IB values. They are encouraged to become resilient, responsible learners, curious inquirers, and confident global citizens.

◆ Applied Learning

IEP aims to provide practical, real-world language learning. Students also enjoy a rich mix of activities including Arts, Drama, Cooking, PE and Outdoor Learning Experiences on campus. Through co-curricular clubs and sports via our Exploria Programme, they practise using language in a variety of everyday contexts.

Personalised Learning Approach

Extended Immersive English Environment

Being an Integral Part of Our International School Community
